Summary

Software Engineer with 5+ years of experience delivering full-stack web applications and cloud-based solutions across defense, healthcare, and financial sectors. Proficient in C#, Python, JavaScript, SQL, HTML, CSS, and Azure.

Experience

Insight Global (Contract) – *Software Engineer*

Oct 2024 – Feb 2025

- Built dynamic front-end pages with React, HTML, CSS, and JavaScript
- Designed scalable RESTful APIs in Node.js and JavaScript connected to PostgreSQL
- Used GitLab for version control in an Agile development environment

Cloud Wave / Sensato – *Software Engineer*

Jul 2022 – Apr 2024

- Built full-stack features using Azure ASP.NET Core webapp (C#) and React JavaScript (including HTML and CSS)
- Integrated external REST APIs with C# and worked with Cosmos DB (NoSQL)
- Created/Maintained Python applications interacting with PostgreSQL
- Used GitHub for version control in Agile methodology

The JAAW Group – *Software Developer*

Sep 2021 – Jun 2022

- Developed a Blazor web app with C#, HTML, CSS and SQL Server
- Automated CI/CD using Azure DevOps YAML pipeline
- Created Python scripts for IT/Engineering and file system maintenance
- Followed Agile methodology and used Git for version control

SS&C Technologies – *Software Developer*

Nov 2018 – May 2021

- Enhanced ASP.NET MVC + SQL Server app with React (HTML, CSS, JavaScript)
- Wrote Python-based end-to-end automation scripts
- Built REST APIs using C# (in an Agile team setting)

Earlier experience available upon request

Education

University of Wisconsin – Parkside
B.S. in Physics (Computational Physics Focus – Computer Science Related)

Skills

C# • Python • JavaScript • SQL • HTML • CSS • ASP.NET/Core • React • Node.js • Git • Azure
